

# ON THE MOON WITH APOLLO 15

The United States will send another expedition to the Moon soon. This time with twice as much equipment and payload as any previous vehicle.

The 12-day flight is Apollo 15, scheduled for launch from Cape Kennedy no earlier than July 26. Air Force Colonel David R. Scott, a veteran of Gemini 8 and Apollo 9 space flights will be the commander. Command module pilot is Maj. Alfred M. Worden, and lunar module pilot is Lt. Col. James B. Irwin. Both are Air Force officers and neither has flown in space before.

Plans call for astronauts Scott and Worden to spend about 20 hours out of their lunar module exploring the Moon's surface. This is twice as long as time spent on the Moon by Alan Shepard and Ed Mitchell during the Apollo 14 mission.

But the Apollo 15 crew will be able to get around easier. They'll have their own lunar automobile, a battery powered lunar roving vehicle which will cart them, their tools, and communications equipment around on their three trips. The lunar rover and an improved space suit and life support system make it possible to increase both the range and efficiency of these expeditions. Stowed aboard the lunar module are enough consumables - water, food, oxygen - to double the time an astronaut can work on the lunar surface.

A television camera mounted on the lunar roving vehicle will provide coverage of astronaut surface exploration events while the vehicle is not actually in motion. The television system includes a ground command capability which could permit the first television coverage of lunar module liftoff from the lunar surface.

The landing site for the

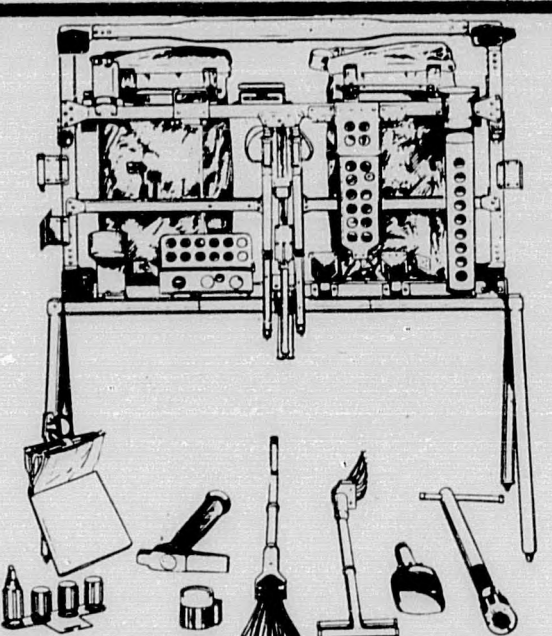

mission is the Hadley - Apennine area of the Moon. The Apollo 15 command module pilot will leave the cabin, move along the outside of the spacecraft to retrieve films from the scientific instrument module for return to Earth. Television coverage of this activity is being planned.

## To Be Launched July 26

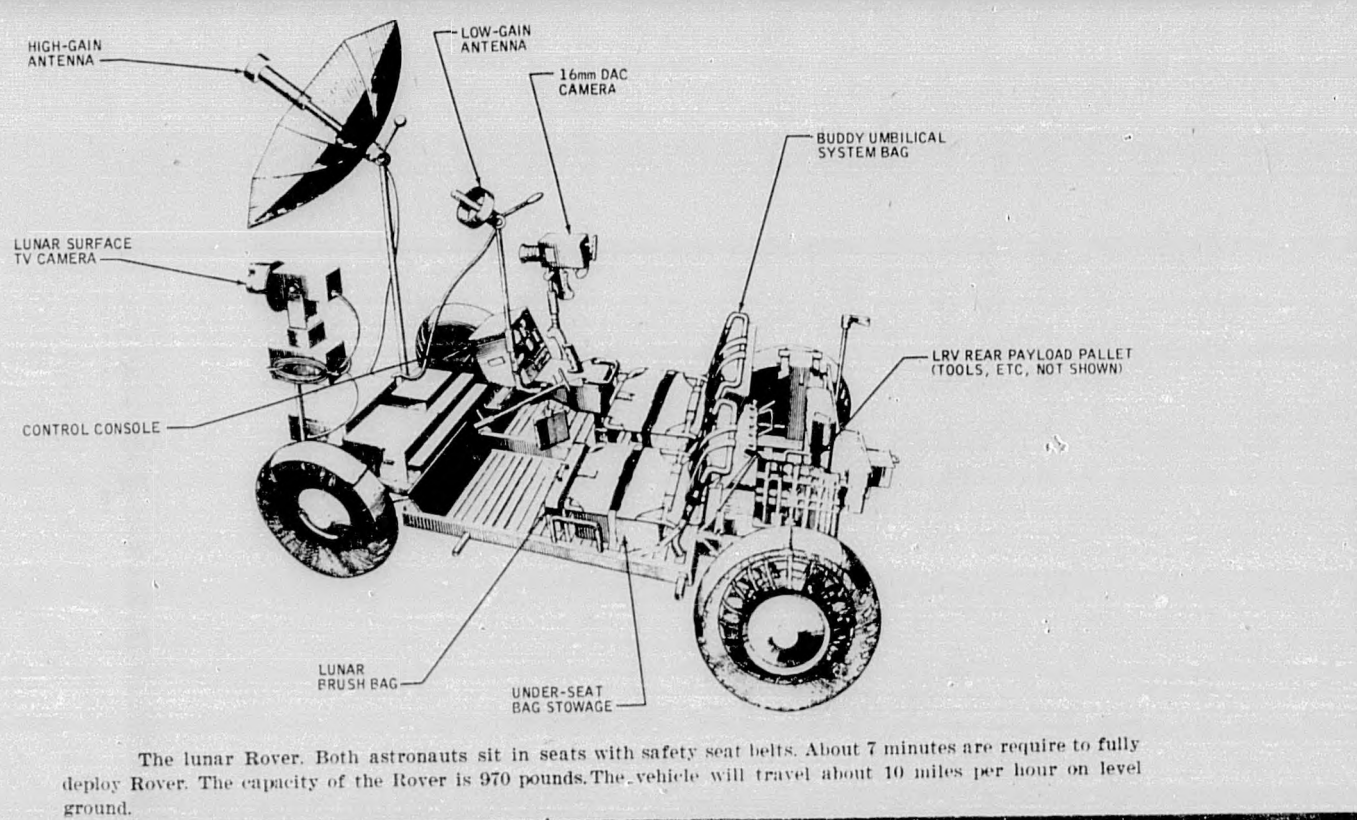

### Landing Site Description

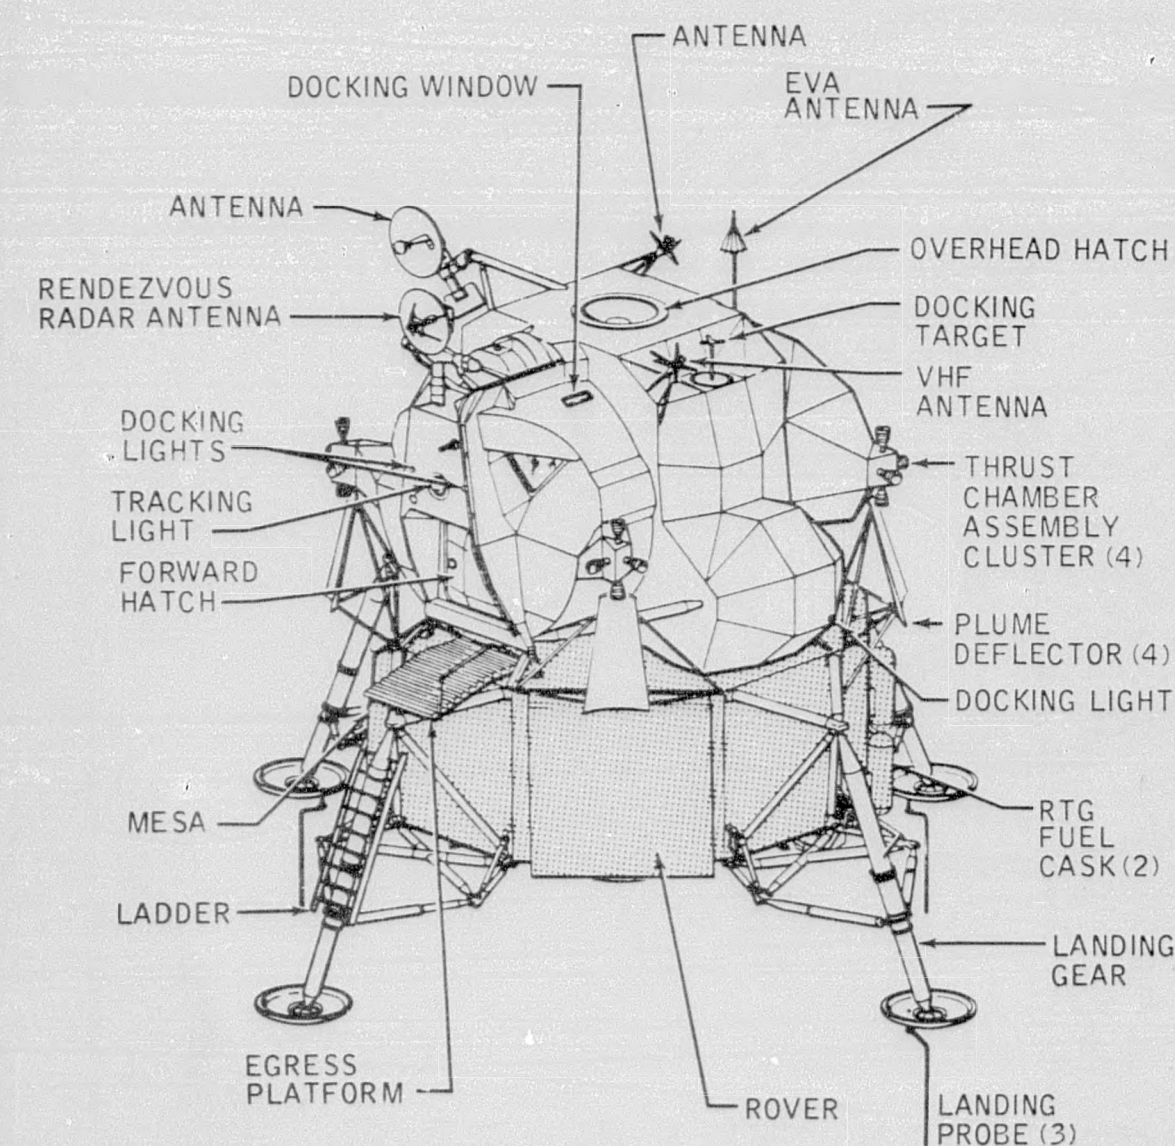

The Apollo 15 landing area, termed Hadley-Apennine, is situated in the north central part of the Moon (latitude 26° 04' 54" N, longitude 03° 39' 30" E) at the western foot of the Apennine Mountains, and by the side of Hadley Rille. See figure 1. The Apennines rise 15,000 feet above the lunar surface and the southeastern edge of Mare Imbrium (Sea of Rains). For comparison with Earth features, the steep western edge of the Apennine Mountains is higher than either the eastern face of the Sierra Nevada in the western U.S. or the edge of the Himalayan Mountains that rises several thousand feet above the plains of India. The actual landing point was selected so the astronauts could study the sinuous Hadley Rille, the Apennine Mountains and several other geological features.

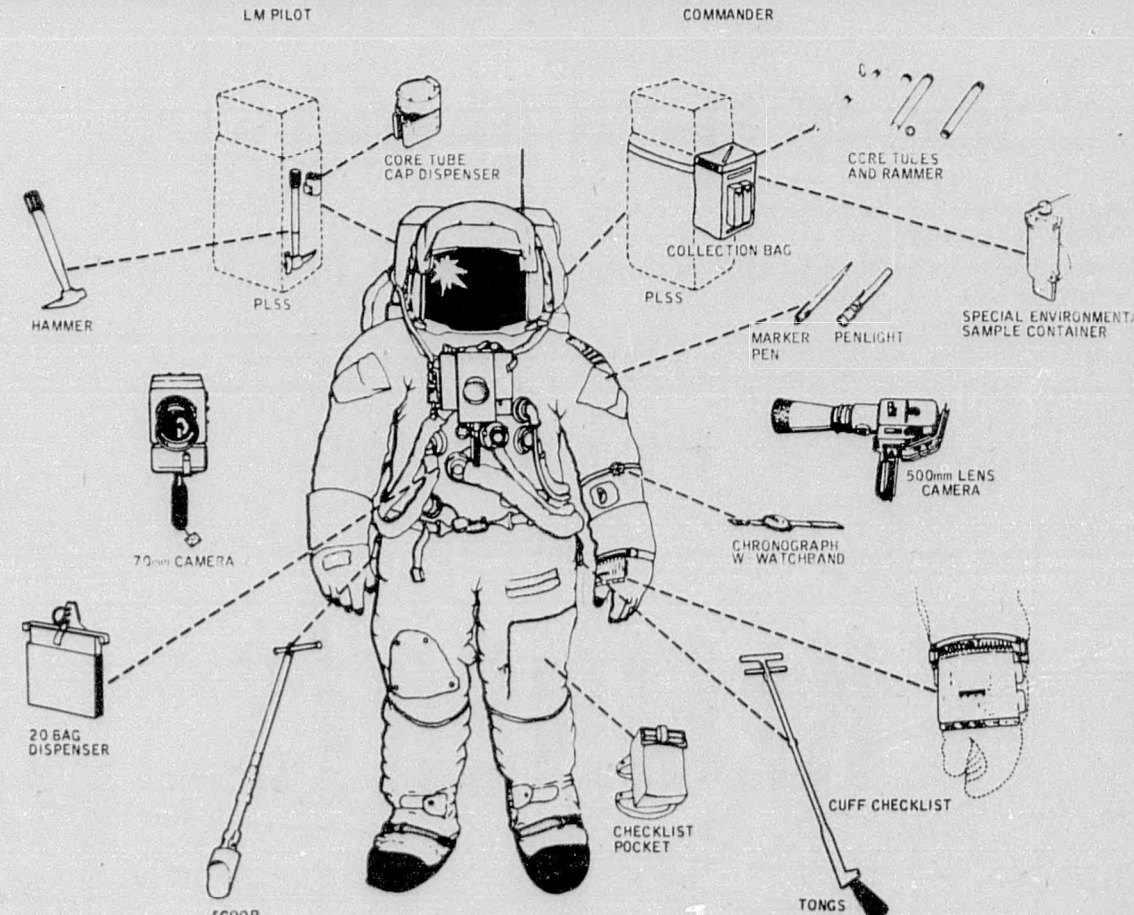

Lunar Geological Hand Tools. This equipment is used to collect samples of rock and soil on the Moon.

The lunar rover. Both astronauts sit in seats with safety seat belts. About 7 minutes are required to fully deploy the rover. The capacity of the rover is 970 pounds. The vehicle will travel about 10 miles per hour on level ground.

The Lunar Module (LM). The shaded portion, the descent stage, remains on the Moon when the astronauts leave in the ascent stage to rendezvous with the CM and return to Earth.

Astronaut suit. The suit prevents exposure of the astronaut to the Moon's vacuum. It incorporates many improvements over the suits used on previous Apollo flights. Sketched also are several items of equipment.

## Easters Pledges To Vote 'No' For Teachers

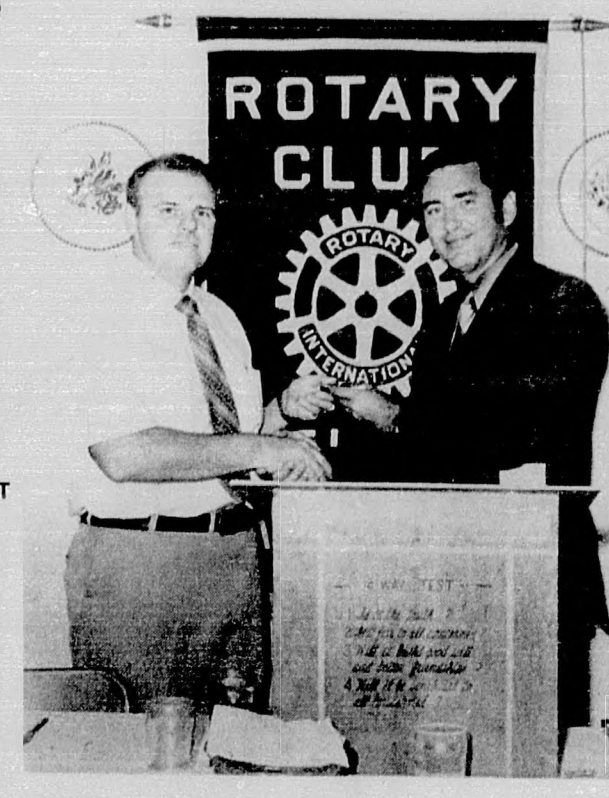

Monday, July 26, 1971, Sylvia Padgett, President of the Elba Teachers' Association, called a meeting of the legislative, political action, and program committees.

Members of these committees and the administrative staff met with the Coffee County Representative, Doug Easters, to discuss issues in education and teacher welfare.

The key issue, House Bill 1814, concerns the recent proposal by Governor George Wallace to defer payment to the Teacher Retirement System for the next two years to operate the Mental Health Facilities. Representative Easters said that the association might quote him as saying, "I shall vote 'No' when or if H.B. 1814 comes to a vote in the House."

### FOOTBALL OFFICIALS MEET

There will be a meeting of the Enterprise Athletic Officials Association on Monday night, August 2nd, according to Bill Bullard of Elba. The meeting will be held at the Enterprise High School and anyone interested in officiating at high school football games is urged to attend this meeting.

CHARLES HAYES, III, left, President of the Elba Rotary Club is speaking at an engraved ink pen to Rotary District Governor Robert B. Hall of Dothan. Hall addressed the Elba club at its regular meeting Monday of this week. Prior to the meeting he conferred with Hayes and other club officials concerning the group's plans for service activities.

## GUNTER-DUNN PLANS OPEN HOUSE

The staff at Murphree Furniture has long awaited the move to their new building and the changing of the company name to become a full member of the Gunter-Dunn furniture stores.

This will become a reality on Thursday (today) when the doors swing open at the new Gunter-Dunn building at the corner of Simmons and Adkinson Street.

Local manager, L. B. Murphree, has announced in a full page advertisement in this issue of The Elba Clipper that the firm is celebrating the event with a grand opening celebration that showers the visiting public with prizes, free gifts and low, low prices throughout the store.

Free prizes include a sofa, dishwasher, portable TV, carpet, lamps, rock-er, vacuum cleaner and 6 transistor radios.

### Mt. Vernon

#### C. M. Church Slates Revival

Revival services have been scheduled for next week at the Mt. Vernon Congregational Methodist Church located 14 miles Northeast of Elba. Revival services will begin at 7:30 p.m. Sunday night and continue at that time through Friday night.

Visiting Evangelist will be Wymann D. Rousehaver of Bay Town, Texas. Mrs. Ruth Schultz is pastor of the church.

FT. RUCKER'S PIED PIPER... Dressed in the plaid and tartan of the McKenzie Seaforth clan, Second Lieutenant Daniel P. Rucker sounds a Scottish air with his Highland Warpipe. The Lieutenant, from Cincinnati, Ohio, is the administrative and supply officer with the Educational Television Division, Army Aviation School at Ft. Rucker, Ala.

MANAGEMENT PRAISES TOP EMPLOYEES - The management of Kleinfelt's had high praise for their top 75 production employees last week. Each of the 75 had exceeded the minimum production requirements and were drawing salaries ranging from \$2.00 up to a top of \$4.14 achieved by Mary Bolling.

Inez Beck, Willie Mae Spivey, Chu Cha Weaver, Lana Roberts, Glenda L. Beck, Mary Bolling, Frances Lang, Grace Griggers, Sandra Carney, Owen Tillis, Hazel Sanders, Brenda Ellison, Frances Barton, Mattie Stroudmire, Gloria Roberts, Cupidean Silas, Juanita Johnson, Gail Grantham, Marilyn Boswell, Sun' Yong Stuckland, Joan Watson, Wanda Sexton, Nathane Miller, Annie Lois Sewell, June Newman, Wynell Layton,

Lillian Hilliard, Shirley Williams, Sherry Tew, Mary Marler, Pat Kidd, Alice Polmar, Evelyn Gallimore, Carrie Nell Turner, Johnnie A. Lindsey, Desmoines Grant, Debbie Bowers, Evelyn Cauley, Peggy Joe Howell, Eudora Swain, Mary A. Jordan, Diane Johnson, Glenda Hayslette, Mary Miller, Noble Lee Rayborn, Ophelia Smith, Merle Maulden, Cennie Adcock, Joyce Johnson, Jane Hataway, Clifford Parker, Emma Nell Ware, Ronnie Barton, Doug Rhodes, Don Rhodes, Katie Strickland, Cynthia Strickland, Betty Danahy, Ovalee Sims, Marrietta Jackson, Syble Arnold, Brenda Allen, Dale Kelley, Fannie Polmar, Mervin Coon, Evie Beck, Faye Cain, Dean Miller, Mozell Scott, Linda Montee, Grace Culver, Margaret McDonald, Diane Stewart, Harriette Bullard and Linda Wise.

# The Elba Clipper

## Commissioners Support Tag Law

### Dorsey Prepays All Of 1983 Convertible Notes

The Dorsey Corporation (NYSE), Chattanooga, announced on July 22, 1971, that its board of directors has authorized the prepayment of the entire \$1,500,000 principal amount of its outstanding 6-3/4 percent Convertible Subordinated Notes due April 1, 1983. It is anticipated that prepayment of such principal amount, together with accrued interest and a 6-3/4 percent premium, will be made on or before September 30, 1971, except to the extent that all or a portion of these notes are converted prior to prepayment. The conversion price of \$10.00 per share, Dorsey's common stock at a conversion price of \$10.00 per share, was announced on the New York Stock Exchange yesterday at \$20.58. It is anticipated that all of these notes will be converted prior to prepayment and that registration under the Securities Act of 1933 of the shares issued upon conversion will be demanded by the institutional holders of these notes and will be undertaken in accordance with the notes' agreements at Dorsey's expense.

The Dorsey Corporation is the leading manufacturer of glass bottles, plastic containers and cargo trailers. Dorsey's operating subsidiaries are Chattanooga Glass Company, a major manufacturer of glass containers for the beverage, food and pharmaceutical industries; Dorsey Trailers, a leading manufacturer of cargo trailers, and Sewel, Inc., a producer of blow-mold polyethylene containers, principally for dairy and other food products.

In 1970, the Dorsey Corporation reported net sales of \$83,671,000 and earnings of \$4,173,900 as compared with sales of \$76,346,000 and earnings of \$3,961,000 reported for 1969.

The Coffee County Commission discussed the problem of people not purchasing tags for their mobile homes as required by state law, at the Elba Courthouse on Monday of this week. Present with the Commissioners and the Probate Judge were Coffee County Tax Assessor Fred Donaldson, Coffee County Tax Collector Maxwell Reeves and Mr. Dator Shirley, Coffee County License Inspector.

The Commission told Mr. Shirley they would give him their moral support in his efforts to enforce the tag law. The tag law which went into effect on October 1, 1961, clearly states that all mobile homes not assessed with lot it is parked on will plainly display a current motor vehicle tag issued August 1 - 8 at Whitewater Baptist Church. Services will be held nightly at 7:30 p.m. with the Reverend Fred M. Taylor, pastor of Polk Street Baptist Church, Dallas, Texas, and formerly of Coffee County, bringing the messages. Song services will be under the direction of Robert Holliman.

David Richburg, pastor, invites everyone to attend.

If a mobile home owner still refuses to buy a tag, Mr. Shirley is directed by state law to issue a warrant for the owner's arrest. Upon conviction the fine can be up to \$100 plus court costs and citation fee. This cost easily totals \$150 plus the tag must still be purchased.

Probate Judge James Sawyer told this newspaper Tuesday, "It is not the intent of myself or these other fine men to cause anyone any undue headaches, we want to treat everyone fairly." He continued by saying, "We do not feel it is fair to those who have bought their mobile home tags for others not to buy them either through design or ignorance of the law."

## Parents Know the Drug Threat

The Child You Save May Be Your Own

A MESSAGE FROM JACK BRUNSON, MAYOR City of Elba, Alabama

Most of us like to think that the drug threat is a problem in some far off big city, but the fact is that we have a drug threat in our City and County today. For this reason I obtained a series of articles for publication in an effort to communicate with as many parents as possible. This series, as the title implies, will be to give all parents in our community some of the latest information on drug abuse.

Today's Subject: Barbiturates - Depressants. Barbiturates, unlike Marijuana, Heroin and Hallucinogens, are legitimate drugs. However, although they can be and are prescribed legally by physicians, they can be extremely dangerous when misused because they depress the central nervous system... the brain and spinal column. In this category are:

SECONDAL, SECOBARBITAL: these are red capsules and referred to by drug misusers as "Red Devils" - NEMBUTAL, PENTOBARBITAL: these are yellow in color and in capsule form also. Slang term is "Yellow Jacks" - TUNAL, AMO-WITH SECO-BARBITAL: red and blue (half & half) and called "Rainbows" on the street market - AMYTAL, AMOBARBITAL: all blue capsules, called "Blue Heavens" by abusers. These are all dangerous prescription drugs usually prescribed as sleeping pills. They are the most commonly found barbiturates on the illegal "street market". BARBITURATES ARE HIGHLY ADDICTIVE. Physical addiction or, as it is called, "physically hooked" users will:

Require increased doses regularly because the body builds a tolerance to these drugs.

Be depressed, drowsy and demonstrate marked slurred speech.

Become psychologically dependent, or mentally "hooked".

Suffer withdrawal pains if dose is not available and can experience nervousness, tremors, convulsions, delusions, hallucinations and delirium.

"Intoxication" on barbiturates can range from lethargy to deep coma, depending on how much is taken. The trouble is, after taking too much the misuser doesn't remember how much he has taken and often takes more and more until a coma results. In addition to these dangerous possibilities, drug users often drink alcoholic beverages in addition to taking drugs, at the same time they are "on" drugs. It has been proved that barbiturates, when combined with alcohol, can be deadly! Intended or accidental death can result. More people commit suicide with barbiturates than with guns.

It is best to keep well in mind the fact that some barbiturates are obtained by youth from home medicine chests, but the vast majority are made legally in the U.S.A., sold legally to Mexican and other foreign firms, and reappear back in the U.S.A. on the illegal "street market" within 6 months. They cost about 25c each and are usually packaged in foil wrappers containing 4 to 6 for a dollar.

It is of some comfort to know that stimulants and barbiturates are regulated by the Food and Drug Administration under the drug abuse control amendments of 1965. These provide for a strict accounting of supplies of the drug by the manufacturer, distributor, and seller, and restrict the use to five refills of the prescription, at the discretion of his doctor. Therefore, these drugs can be had legally only through a physician. Illicit manufacturing and dispensing of barbiturates can bring fines of \$1,000 to \$10,000 and prison sentences of 1 to 3 years.

Those convicted of selling the drugs to persons under 21 can receive up to \$15,000 fines and 5 to 6 years in jail. How to handle tell-tale signs of drug abuse in a child will be discussed in another article. Right now we are going over the facts so that we all have firmly in mind the nature of the "enemy" we are facing. Watch for next week's "letter" in this newspaper. I am sure you will find it informative and enlightening.

### Elba Deliverance

#### Tabernacle

##### Revival Services

A revival is in progress at the Elba Deliverance Tabernacle, located on the Taylor Mill Road, with Evangelist Randy Hobbs conducting the services each evening at 7:30. Good special singing and preaching can be enjoyed nightly.

Pastors Jimmy and Shirley Hatcher invite everyone to attend.

Miss Dismukes Ford and Little Miss Dismukes Ford were selected in Enterprise earlier this month. Named Little Miss Dismukes was Miss Jennifer Miller of Enterprise while Miss Paula Larish of Ft. Rucker was named Miss Dismukes Ford.

Revival Services To Be Held At Whitewater

Revival services will be held August 1 - 8 at Whitewater Baptist Church. Services will be held nightly at 7:30 p.m. with the Reverend Fred M. Taylor, pastor of Polk Street Baptist Church, Dallas, Texas, and formerly of Coffee County, bringing the messages. Song services will be under the direction of Robert Holliman.

David Richburg, pastor, invites everyone to attend.

By Tom Casaday, County Extension Chairman

**WEATHER**  
Harris (Pat) Moates, who lives a mile or so north of Enterprise, keeps the official record for the Weather Bureau on the rainfall. He told me that up until July 3 he had recorded 38.9 inches of rain from January 1 until then. Since then, they have gotten several additional inches of rain. Some areas of the county have received probably 15 inches of rain more this year than we received last year. On the other hand, some western parts of the county are in much need of rain. I was visiting in the Curtis Community a few days ago and also in the Perry's Store, Rhoades, and Weeks communities. A lot of people there are needing rainfall. In many cases, the peanuts have not tilled in the middle. I surely hope that the entire county can get rain-fall, especially for the next three weeks to help mature the peanut crop.

**FARM BUREAU MEETING**  
Philip Martin, president of Coffee County Farm Bureau, is busy completing plans for their annual meeting. Martin has secured Dr. Max Rafferty of Troy State University to be the principal speaker. The annual meeting will be held at the Enterprise High School auditorium Thursday afternoon, August 12. It will end with the traditional barbecue which will be served in the cafeteria. The officers and directors met Thursday night to complete plans for the meeting. It is always a pleasure for me to meet with this top group of Coffee County leaders.

**ACTIVITIES BUILDING**  
More and more folks are talking about the city, county and interested organizations developing an area suitable for civic activities. I have said many times that we are in desperate need of adequate facilities for various activities that people in the county are interested in. For example, most folks would like to have an area developed where horse shows and calf shows could be held. A lot of people are also interested in having an area developed to host carnivals and other activities which are put on each year by various civic clubs. It is difficult to plan to invite other counties into the area for activities when facilities are not available. If I am any judge of the folks in Coffee County, both

## ESJC Students Find New Career At UAB

High School graduates in Coffee County, or students with one year of selected courses at Enterprise State Junior College, may find a new career as a health worker through a special program at the University of Alabama in Birmingham (UAB).

### Trash Compactor Interest Grows

The trash compactor is still an experimental household appliance. But consumer interest in it is growing, says Mrs. Genta Speakman, Extension housing and equipment specialist. Marketing test results indicate that consumers are interested in the new appliance, because it is convenient and a cleaner way to handle trash. The specialist notes that the compactor will reduce trash to about one-fourth its original size. The trash compactor compresses the bulk of solid waste materials—papers, boxes, plastic and glass bottles and food wastes—usually put into waste baskets and garbage cans.

The compactor is two-thirds the size of a dishwasher, operates on electricity and needs no water or special wiring. Mrs. Speakman adds, "The trash is placed in a bag in a special drawer and compressed. The rectangular bag containing a full load of compacted trash may weigh 20 to 30 pounds. A family of four may have to change the container once a week.

The compactor retails for about \$200 and is considered a luxury item, but six manufacturers plan to put lower priced models on the market later this year. Can compactors contribute to long-term improvement of garbage disposal techniques? This can only be seen after the appliance is used by more families for longer periods of time.

Mrs. Speakman says that the federal government is sponsoring a year-long study this spring in Atlanta, Ga., to learn the effects of the compactor on garbage collection. "One objective of the study is to see if small crews and trucks can handle the same amount of compacted refuse. They also hope to learn whether the cost of collecting and transporting refuse can be reduced. And the effects of compaction on sanitary landfills and city incinerators will be studied."

**Business Will Respond**

"By keeping the economic mechanism strong and functioning with a minimum of restrictions, American business will respond generously and effectively to the social demands of the American family, enhancing the dignity and security of its individual members, and providing a quality of life that is unsurpassed anywhere in the world."

## Placement Tests To Be Given At ESJC

Freshman Placement  
Tests will be given at En-  
terprise State Junior Col-  
lege, Wednesday, July 28,  
at 8 a.m., in the Science  
1 lecture Room 3-100, Dean  
of Student Personnel Tom-  
my N. Johnson announced.

All freshmen planning to  
attend Enterprise State  
next fall are required to  
take the tests which are  
used to determine place-  
ment in English, Reading  
and Math courses. Other  
testing dates will be an-  
nounced later.

Johnson said that stu-  
dents already enrolled or in  
attendance must also take  
the tests if they have not  
already done so. He added,  
"Our counselors and ad-  
ministrators will be avail-  
able to help you with the  
tests."

The High Court must be  
checked if the Republic is  
to survive intact. I have  
sponsored legislation in the  
United States Supreme Court.  
They obviously figured that  
the time would come when  
the Court would abandon  
written law and legal prece-  
dent as to law and fact,  
with such exceptions, and  
under such regulations  
which their own personal  
opinions.

Article III states plainly,  
"... the Supreme Court  
shall have appellate jurisdic-  
tion, both as to law and  
fact, with such exceptions,  
and under such regulations  
which the Congress shall  
make."

The committee would  
study Supreme Court rul-  
ings of the current and past  
four Administrations, dat-  
ing back to April 12, 1945.  
It would be authorized to  
sit and act during this Con-  
gress, both while it is in  
session and in recess or  
adjournment.

The committee will re-  
port its findings and make  
recommendations for ac-  
tion before December 15,  
1972.

The failure of Congress  
to assert itself in the past  
has probably contributed  
to the usurpation of its  
powers by the Supreme Court  
and the circumvention of  
its wishes by agencies  
within the Executive  
Branch of Government.

In decision after deci-  
sion, the Court has ignor-  
ed the mandate of Con-  
gress and assumed author-  
ity specifically granted to  
the Legislative Branch. If  
the untested by agencies  
constitutional powers dele-  
gated to the states and  
in many instances, it has  
taken powers rightfully be-  
longing to the states and

visors have been instructed  
not to register any students  
for English or Math  
courses until they take the  
placement tests. We must  
have placement test scores  
on a student in order to  
schedule him for courses  
equal to his abilities and  
past experience has proven  
the value of these tests in  
doing this properly."

During the testing pe-  
riod, students will be given  
appointments for pre-reg-  
istration counseling and  
will meet at 1 p.m. for  
freshman orientation.

TSU At Maxwell  
And Ft. Rucker  
Receive Accreditation

Troy State University's  
branches at Maxwell Air  
Force Base in Montgomery  
and at Ft. Rucker have  
received full accreditation  
from the Southern Asso-  
ciation of Colleges and  
Schools.

Dr. E. L. W. Adams,  
president of Troy State,  
following the Southern As-  
sociation's acceptance of  
a self-study report made  
by the Maxwell branch.

When Maxwell and TSU's  
other branch at Fort Ruck-  
er received accreditation,  
they joined only a few  
branches that have gotten  
recognition from the  
Southern Association and  
became the first in Ala-  
bama to receive such rec-  
ognition.

The accreditation of the  
branches expands the  
functions of their serv-  
ices in that students may  
receive a degree from Troy  
State University without  
having to come to the main  
campus at Troy.

Each branch campus is  
staffed by its own person-  
nel and headed by a di-  
rector who is responsible  
for all administrative and

educational facets of the  
branch. Dr. James E. Bal-  
lentyne, Jr., director of  
the branch at Ft. Rucker,  
while Robert M. Paul  
heads up the Rucker  
campus.

Your willingness to build a building of this distinction indicates your confidence in  
the City of Elba and its future. Your actions speak well of your firm and its employees and I wish you well in all  
your endeavors. I have thoroughly enjoyed my relationship with Mr. Gene Gunter

of Gunter-Dunn, Inc. and I hold him in high esteem. Mr. Boyd Murphree, Bob  
Craft and Donald Spurlin have been most cooperative during the construction of  
this project. Their patience and understanding of the problems which were en-  
countered were greatly appreciated.

Good Luck With Your Grand Opening

The prizes to the lucky winners will be: a Brookwood Sofa, a Magic Chef Dishwasher, a set of Simmons Beautyrest bedding, a Whirlpool Electric Clothes Dryer, a 7 pc. Dinette by Gate City, a Magnovox portable TV and roll-about cart, a 10 ft. X 18 ft. carpet by Columbus Mills, a set of Maple Occasional Tables, a pair of Table Lamps, a Broyhill maple trim Swivel Rocker, a Eureka Vacuum Cleaner, and six (6) Magnovox Transistor Radios. Register each time you visit Gunter-Dunn July 29 through 31. Drawing will be at 5:00 p.m. Saturday July 31. You do not have to be present at time of drawing. Winners will be notified.

Grand Opening! Elba's Newest And Finest Furniture Store!

You Are Invited July 29 Thru 31 \$2,000.00 In Free Gifts

National Brands Displayed  
At Gunter-Dunn

It's only natural to place confidence in a brand you know, and you can place double confidence in a Name Brand product when you buy from a company that gives service as does Gunter-Dunn.

At Gunter-Dunn, corner of Simmons and Adkinson Street, Elba, some of the family of famous National Brands are Broyhill, Simmons, Thomasville, Magnavox, Whirlpool, Stratford, Magic Chef, I-A-Z-B, Chromcraft, Brookwood, Bassett, and carpet by Columbus Mills. You can buy with confidence at Gunter-Dunn.

Quantity Purchases Mean Lower Prices

Buying in quantity lots, truckload or carload, direct from factories result in savings for Gunter-Dunn stores. These savings are passed on to you, the Gunter-Dunn customer. Buying for Gunter-Dunn stores is done at National Furniture Markets in North Carolina. Purchases are coordinated with over 90 other large furniture stores to give Gunter-Dunn tremendous purchasing power for even greater savings and lower prices.

Gunter-Dunn Ready To Serve Area

Gunter-Dunn, located at the corner of Simmons and Adkinson, Elba, Alabama will make its grand opening debut at 10:00 a.m. Thursday July 29; anxious to serve a growing Elba trade area.

According to Manager Boyd Murphree, Gunter-Dunn has spared no expense in an effort to bring the Elba community one of the most

modern and complete home furnishings stores in the South Alabama area. The unique floor plan, and over 200 ft. of window area permit unusual display techniques that you will find interesting.

There will be plenty of FREE store-wide parking at Gunter-Dunn at both the

Simmons and Adkinson Street entrances, and you'll find many "room settings" of fine furnishings attractively displayed for your selection. You'll enjoy browsing in the fully carpeted, Air Conditioned comfort of this new store and seeing the latest styles from the newest in modern through the rustic Early American designs.

Boyd Murphree Store Manager

Boyd Murphree is well known in the Elba community. He was the founder and owner of Murphree Furniture Co. of Elba which he operated for 17 years before joining the Gunter-Dunn organization. Mr. Murphree is Board Chairman of the United Methodist Church, on the Board of Directors of The Peoples Bank, past president of the Elba Chamber of Commerce and has served on the City Council for 4 years. Mr. Murphree and his wife, Kate, have two daughters, both married, and reside at 951 North Troy Highway in Elba.

**This is Your Personal Invitation To Visit The New Gunter-Dunn. Come In And Enjoy Our Spacious And Exciting Store. Take Advantage Of The Tremendous Opening Special Prices. Beginning 10:00 A.M.**
